A BEAVERBROOK INFILL INITIATIVE **Intelligently designed. Quality homes.**

BEAVERBROOK IS BREAKING NEW GROUND

For the past 20 years we've been a big part of Edmonton's growth, creating great communities that people call their home. And now we'd like to take our knowledge and expertise of building communities and understanding Edmonton's housing market and apply it to infill housing. Balanced growth is important for our city. As infill development has become more widely accepted and popular, we'd like to continue to play a role in shaping Edmonton's future by creating intelligent and quality designed infill developments.

Announcing our newest division, InHouse, which will focus on expanding Beaverbrook's business in the direction of infill housing. InHouse is underway and coming to market with a very high-profile project. As one of the region's most reputable land developers, Beaverbrook is poised to take on this new challenge.

For more information, please contact Salima Kheraj or Ryan Smith.
