A BEAVERBROOK INFILL INITIATIVE Intelligently designed. Quality homes.

THE FORMER GLENORA SKYLINE: BEAVERBROOK'S NEW BLANK CANVAS

InHouse, Beaverbrook Group of Companies' infill division, is in the process of acquiring the lands formerly known as the Glenora Skyline project. Approximately 3.5 acres of prime land, this project brings with it the promise of becoming an iconic redevelopment and legacy within the city. With sweeping views of the river valley, a future LRT line and the backdrop of the beautiful Glenora neighbourhood only minutes from downtown, InHouse envisions this project as a comprehensive mixed-use development unlike any other in the city.

Once the process is concluded, we'll get right to work. With our expertise in community design and innovation, we look forward to repurposing the design of the site to bring forward a new vision that will see the project come to fruition and be an enjoyable development for the community.

For more information regarding the new InHouse Glenora Project, please contact Salima Kheraj or Ryan Smith.
