

inhouse

A BEAVERBROOK INFILL INITIATIVE Intelligently designed. Quality homes.

STANTEC CONSULTING MAKES THE TEAM

InHouse welcomes a partnership with Stantec Consulting Ltd. to provide urban planning services for the redevelopment of their Glenora site. Stantec’s experience planning great communities in Edmonton and across North America makes them a clear choice for this role. With the trusted guidance of Simon O’Byrne and Jacob Edenloff, InHouse looks forward to re-imagining the Glenora site and bringing it to life.

Says Simon, “InHouse’s Glenora project provides an enormous opportunity to raise the bar of design excellence for mixed-use development in Edmonton. This project will set the new best-practice standard in Edmonton for how you integrate a new community within a mature one.”
